

GUIDE FOR PARTNERS

In order for your organization, company, school or project to become a partner of the 2022 STEM Discovery Campaign, you must follow this two-step procedure:

STEP 1: INCLUDE THE STEM DISCOVERY CAMPAIGN IN YOUR WEBSITE

First, copy the pre-written HTML codes of this guide to a web page and/or a newsletter of your project, organisation, company or school.

OPTION A: CODE FOR WEBSITE

You can find the HTML code to copy and paste to your website in the following two files:

- [SDC2022-html-body.txt](#)
- [SDC2022-html-sidebar.txt](#)

Please note that there is a code for the body field and another one for a side-banner. If your website uses a CMS that cannot support HTML, please contact the Scientix Project Coordination Intern at isidora.salim@eun.org.

OPTION B: CODE FOR NEWSLETTER

You can find the HTML code to copy and paste to your newsletter in the following file:

- [SDC2022-Code-for-newsletter.txt](#)

STEP 2: REQUEST PARTNERSHIP

When you have created a web page or/and adjusted your newsletter with the codes listed above, you must complete the [online request form](#) for partnership in the 2022 STEM Discovery Campaign. Access the form to request partnership here: <https://forms.gle/Fjvi2Mb5mqrDNhN96>.

Only partners who have filled in the [online request form](#) will be added as official partners of the 2022 STEM Discovery Campaign.
